Job Description

BOOT CAMP SESSIONS EXAMPLES (PLEASE ENSURE YOU IDENTIFY SPECIFIC SESSIONS OF INTEREST ON APPLICATION SUBMISSION)

Boot Camp	Description of Session
Digital Animation	The students attending this Boot Camp will be using professional software and animation techniques. Students will create a story board and bring 3D character to life.
General Coding	The students in this Boot Camp will explore the fundamentals of programming with objects and design. Using both a simple IDE and a commercial IDE, students will program two programs. They will also discuss what the computer science industry looks like and what career opportunities are out there.
Video Game Development and Programming	The students attending this Boot Camp will explore the fundamentals of videogame programming and design. Working with a 2D engine, students will design their own game from scratch. There will also be discussion about the computer science industry and what career opportunities are out there.
3D Printing and Design	Using industry software and the guided expertise from a seasoned designer and instructor, students attending will develop the skills to design their own 3D projects. Easy to follow concepts will be taught and then the students will add their own creativity. There will also be discussions about what 3D printing can be used for and what materials are available.
WordPress & Blog Development	This workshop will combine basic WordPress skills with instruction and inspiration about writing in general. The 2 sessions will result in their first blog ready to be published. It will show youth how they can have influence to an audience using technology as a platform to express their thoughts and ideas, whether in a social or business context.
Creating & Using Chatbots	Students will learn to use AI to create a chatbot both for fun but also for useful business applications. They'll create a chatbot that fundamentally simulates human conversations, and this fun workshop shows a youth how to use easy to follow programming adding their own creativity along the way. The instructor is inspiring about careers in technology in general and will give students confidence to want to learn more.

United Way
Southern Interior BC

ROLE AND RESPONSIBILITIES

<CODE>anagan is a Program that connects disadvantaged & at-risk youth in Kelowna to the exciting and fast expanding Technology Sector. Through Bootcamps hosted by Okanagan College or private instructors in various topics, we help teach youth new, valuable skills to inspire their future education and career goals.

To keep these students excited about a career in technology we want to inspire them by having local talent in the tech industry as our **<CODE>anagan Coaches**. These Coaches would be assisting our instructors in the Bootcamps by helping students along their tech learning journey. You would also be a guide, inspiring the youth on how getting into technology can lead to a long term career of amazing, unique opportunities and experiences.

Bring your passion for Technology and love of community to **<CODE>anagan** to help inspire the next generation of talent and start-ups.

- **In Classroom or virtually:** Attend sessions of Bootcamps assigned and collaborate with Instructor on application opportunities (eg. *bringing in equipment, demos, showcase of your own projects/products*)
- **Create:** Develop, assign and guide student(s) through a 'Take Home' assignment outside of Bootcamp.
- **Meet:** Work with United Way on facilitating catch-up's with your student(s). This can be done virtually as well as in your place of work where appropriate.
- **Inform:** Engage in discussion about how to navigate the Okanagan tech industry. Talk to them about your experiences.

QUALIFICATIONS AND EDUCATION REQUIREMENTS

- Enjoys working with youth and teaching opportunities.
- Currently employed in tech sector related position or company.
- Strong communication and listening skills.
- Ability to guide and teach with patience.
- Ability to work independently.
- Fast learner.

ADDITIONAL NOTES

A criminal background check will be required.
